

Job offer, September 2012

Klewel is active in the field of webcasting, by providing leading edge solutions for efficiently capturing, archiving and searching the information contained in multimedia digital recordings of presentations and conferences. Our main product, Triskel, is a comprehensive webcasting solution, with an audiovisual recording station linked to a web platform that makes it possible to automatically reference, edit and publish content (audio, video and slides). To support the development and the needs of our innovative webcasting solution, we are looking to strengthen our team located in Martigny with a :

Front-end Web Developer

Job description

You will be part of a small, young, highly skilled software engineering team, and be fully responsible for the design and front-end aspects of our web applications: the administration portal allowing to edit and publish content and the publishing portal, including players for all kind of devices, be them desktop, tablets and smartphones.

Responsibilities

- Work with latest methodologies and technologies along with several cutting edge open source projects: you are a scrum enthusiast, appreciate the use of continuous integration at all levels and want to stay up-to-date on the latest front-end technologies to keep sites fast and lean.
- Expert in user experience and interaction graphic design: apart from excellent website appearance and usability, you do not only know where to put the buttons, what they do and what steps users will need to take to accomplish a particular action, but you also design and make them interactive.

Requirements

- Website design experience with a great eye on design
- Expert proficiency with JavaScript, jQuery
- Proficient with HTML5/CSS3 (960gs, Bootstrap, Foundation)
- Experience with MVC/MTV design pattern (Django)
- Development for mobile devices (web apps, iOS, Android)

Desired Skills

- Websockets (Socket.IO)
- Previous Django experience
- Proficiency in design applications such as Photoshop and Illustrator

Does this sound like a good match? Are you ready to join us and contribute your expertise to our company? If yes, we look forward to receiving your application at jointheteam@klewel.com
